

75th Rehabilitation Science and Technology Update (RSTU)

The 25th European Congress of Physical and Rehabilitation Medicine

The Next Generation: Collaborate. Inspire. Innovate

23 - 27 MARCH 2026 | KRAKOW, POLAND

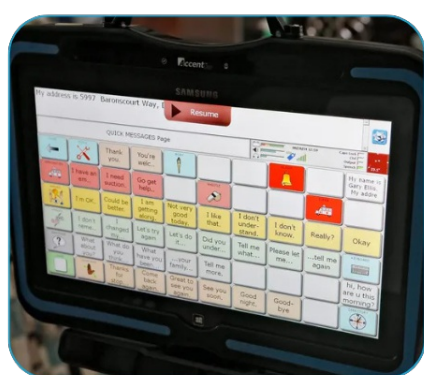

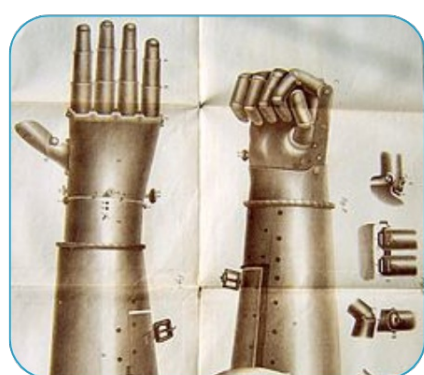

Rehabilitation = Real-Life Superpower

Submit Your Special Session or Workshop.

From the iron arm of Götz von Berlichingen to the brain-chip breakthrough of Noland Arbaugh, rehabilitation has always been about restoring power and purpose.

These pioneers remind us: *the tools may evolve, but the mission stays the same*—empowering people through science, care, and innovation.

At The 25th European Congress of Physical and Rehabilitation Medicine (ESPRM) 2026, we celebrate this legacy. And we invite you to be part of the next chapter!

Do you have a bold idea, innovative technique, or interdisciplinary approach?

Submit a proposal for a Special Session or Workshop and join Europe's top rehabilitation minds in shaping the future of PRM.

SUBMISSION DEADLINE: 01 JULY 2025

Lead interactive, hands-on sessions that offer practical insights into the latest rehabilitation techniques and technologies.

[SUBMIT ABSTRACT HERE](#)

Considerations to help you brainstorm about your workshop format:

- Do you want to limit the number of attendees to your session?
- Will you require equipment for visual or interactive displays? i.e. ultrasound machines, whiteboards, activity materials. Please note additional costs may apply – we can work with you on this if required.
- Do you want your room setup for small group work or theatre style for lectures?
- Will you require any special AV other than standard lectern/microphone/screen? Please note additional costs may apply – we can work with you on this if required.
- Do you want to prescribe any preparation reading for attendees prior to your session?

Rehabilitation: Engineering Comebacks, One Step at a Time.

Be part of the science of second chances—submit your special session or workshop and help write the next chapter in rehabilitation history.
